GOOREE

China

40MW/80MWh

Solar Energy Storage Station

Make Every kWh Trusted

	Location	China
	Product	GR5000
	Capacity	40MW/80MWh
	Commissioned	Dec. 2023

Customer Value

01

Maximize Renewable Energy Utilization

Store energy when it is abundant, release power when it is needed.

02

One Asset, Multiple Revenue Opportunities

Unlock additional value through energy arbitrage, peak shaving, and grid services.

Estonia

1MW/2MWh

Energy Storage Backup Power

Make Every kWh Trusted

	Location	Estonia
	Product	GR2000LH
	Capacity	1MW/2MWh
	Commissioned	Apr. 2026

Customer Value

01

Enhance Energy Resilience
Ensure continuous power supply for critical operations with reliable backup capability.

02

Maximize Renewable Energy Utilization
Store solar energy when available and deliver clean power when needed.

Croatia

0.78MW/1.56MWh

C&I Energy Storage

Make Every kWh Trusted

	Location	Croatia
	Product	GR261L
	Capacity	0.78MW/1.56MWh
	Commissioned	May. 2025

Customer Value

01

Reduce Energy Costs

Lower electricity expenses through intelligent peak shaving and energy management.

02

Improve Energy Flexibility

Optimize power consumption and enhance operational energy efficiency.

Nigeria

1.25MW/1.29MWh

Mine Microgrid
(PV–Battery–Diesel Hybrid System)

Make Every kWh Trusted

	Location	Nigeria
	Product	Customized
	Capacity	1.25MW/1.29MWh
	Commissioned	Oct. 2025

Customer Value

01

Enhance Energy Resilience
Ensure stable power supply for continuous mining operations.

02

Optimize Energy Costs
Reduce diesel consumption and maximize renewable energy utilization.

Sweden

0.5MW/1MWh

C&I Energy Storage

Make Every kWh Trusted

	Location	Sweden
	Product	GR261L
	Capacity	0.5MW/1MWh
	Commissioned	Sep. 2025

Customer Value

01

Reduce Energy Costs

Lower electricity expenses through intelligent peak shaving and energy management.

02

Improve Energy Flexibility

Optimize power consumption and enhance operational energy efficiency.

Germany

125kW/261kWh

C&I Energy Storage

Make Every kWh Trusted

	Location	Germany
	Product	GR261LH
	Capacity	125kW/261kWh
	Commissioned	Jan. 2026

Customer Value

01

Reduce Energy Costs

Lower electricity expenses through intelligent peak shaving and energy management.

02

Improve Energy Flexibility

Optimize power consumption and enhance operational energy efficiency.

Slovenia

Multiple Project

C&I Energy Storage Installed by Distributor

Make Every kWh Trusted

	Location	Slovenia
	Product	GR261L
	Capacity	Multiple Project
	Commissioned	2026

Customer Value

01

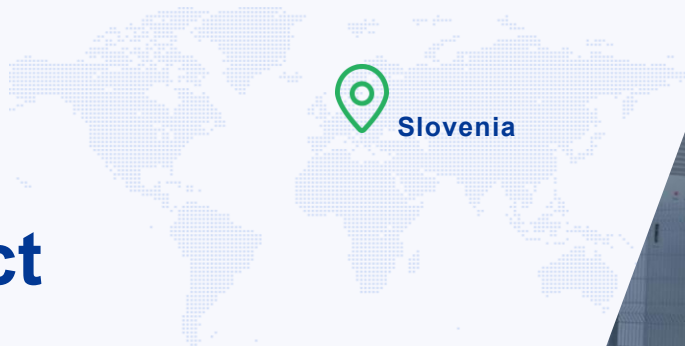

Reduce Energy Costs

Lower electricity expenses through intelligent peak shaving and energy management.

02

Improve Energy Flexibility

Optimize power consumption and enhance operational energy efficiency.

Slovenia

Ukraine

0.5MW/1MWh

C&I Energy Storage

Make Every kWh Trusted

	Location	Ukraine
	Product	GR261LH
	Capacity	0.5MW/1MWh
	Commissioned	Jan. 2026

Customer Value

01

Reduce Energy Costs

Lower electricity expenses through intelligent peak shaving and energy management.

02

Enhance Energy Resilience

Ensure stable power supply for continuous mining operations.

Singapore

100kW/215kWh

C&I Energy Storage

Make Every kWh Trusted

	Location	Singapore
	Product	EMS for PV-ESS-EV System
	Capacity	100kW/215kWh
	Commissioned	Jan. 2024

Customer Value

01

Maximize Renewable Energy Utilization

Capture solar energy and deliver clean power for EV charging.

02

Build Sustainable Charging Infrastructure

Combine solar, storage, and intelligent control for efficient EV charging operations.

Estonia

2MW/4MWh

PV Energy Storage

Make Every kWh Trusted

	Location	Estonia
	Product	GR215L
	Capacity	2MW/4MWh
	Commissioned	Jun. 2025

Customer Value

01

Higher Solar Utilization

Maximize renewable energy consumption and reduce curtailment.

02

Lower Energy Costs

Enable intelligent energy scheduling and peak demand management.

We look forward to working with you to create a greener future.

THANK YOU
